ANNA KARLOVSKAYA

FRONT-END DEVELOPER

Coquitlam, BC, Canada | +1 (778)222-9295 | annakarlovsk@gmail.com | akarlovskaya.github.io

Front-End Developer with 4 years of experience delivering projects in SaaS company in real estate business, eCommerce and a digital agency. Skilled in collaborating with cross-functional teams in agile ticket-based workflows. Proficient in continuous integration development, testing, and debugging, with a strong focus on accessibility, cross-browser compatibility, and mobile-first design. Actively using generative AI tools to streamline coding tasks, optimize solutions, and maintain quality standards while accelerating development cycles. Eager to take on dynamic challenges and bring creativity to building intuitive, user-friendly interfaces.

SKILLS

Technical Stack: React.js (18+), Next.js (13, 15), JavaScript/TypeScript, Node.js, PHP, HTML

CSS & Preprocessors: SASS/LESS, CSS Modules, CSS-in-JS like Styled Components

Responsive Design, UI libraries: Bootstrap, Tailwind CSS, Flexbox/Grid

Testing: Unit Testing (Jest, React Testing Library, Mocha, Jasmine), E2E Testing (Selenium)

Cloud Platform: Google Cloud, Firebase (Auth, Cloud Firestore NoSQL, JSON-like type database)

Tools: Jira, Trello, Git, npm, Terminal, CI/CD pipelines (Jenkins, Vercel), Bitbucket, Postman, MS Office, Zoom, Slack

AI tools: GitHub Copilot, Cursor, ChatGPT, Claude, DeepSeek

PROFESSIONAL EXPERIENCE

Vanklas, Full-Stack Developer, Coquitlam, BC

September 2024 - Present

- Develop a full-stack web application to connect local fitness instructors with participants, owning both front-end and back-end implementation.
- Designed and implemented the entire tech stack (React, Firebase, Next.js, Vercel), built responsive UI/UX components, and architected scalable, document-based data models to support core CRUD operations for classes and user profiles.
- Delivered key MVP features including secure user authentication, role-based access control, dynamic class listings, and automated email notifications.
- Currently building next-phase functionality: real-time notifications, AI-powered tool for content creation, location-based class search.

Farba CDN, Front-End Developer, Remote

September 2023 - February 2024

- Built responsive Dashboard , ensuring consistent styling and smooth user experience across devices.
- Defined and refined UX/UI requirements, made wireframes and mockups and translated them into React JS components.
- Implemented reusable components and state management to improve performance and maintainability across the web app.
- Wrote tests to ensure UI consistency and deliver a smooth user experience.

Full-time parenting

January 2021 - September 2023

- Focused on supporting my family in new country (USA) and taking care of my baby daughter.

RESAAS, Software Engineer (Front-End), Vancouver

December 2018 - December 2020

- Refactored and modernized legacy codebase by migrating platform features to ReactJS for improved performance and maintainability.
- Collaborated with the back-end team to ensure seamless integration between server and browser.
- Actively engaged in design and code reviews, offering feedback to improve code quality, usability, and maintainability.
- Wrote and optimized unit, integration, and UI tests, contributing to a robust CI pipeline and ensuring application stability by catching regressions early in the development cycle.

SoftwareKeep Group, Frond-End Developer, Vancouver

November 2017 - November 2018

- Developed customized themes for e-commerce websites using Magento 1 and Shopify (Liquid template language), leveraging these platforms to enhance user experience and functionality
- Built and maintained custom front-end modules across 5 websites and 12 store views, implementing feature enhancements and UI improvements.
- Developed responsive, mobile-first promotional and landing pages using PHTML, LESS/CSS3, and jQuery, ensuring cross-device compatibility.
- Wrote and refactored front-end code following W3C standards and accessibility guidelines, utilizing validation tools to maintain high-quality markup.
- Collaborated closely with back-end developers, designers, and marketing teams to align technical implementation with business goals and brand aesthetics.
